

Quick and easy: 5 steps to find your kindergarten

Get informed

You can call up a list of all kindergartens and see their location in the overview map. Here you will find detailed information about each kindergarten and can filter the results according to your needs.

Register / log-in

In order to create a list of preferred kindergartens for your child you have to register with your email address. You then will receive an email with a confirmation link. After following that link you can log in to mykitaVM.

Enter parents and child details

mykitaVM needs your contact information for the communication between you and the kindergartens. Furthermore you can fill in name and age of your child and all information about the desired care offer.

Select a kindergarten

mykitaVM offers you all kindergartens corresponding to your specified needs. Select your favorites and define the order as you like.

Submit and make an appointment

With one click you send your data to the selected kindergartens. Your online application will be displayed there. Then, please arrange an appointment with your favorite kindergarten!
